

Machines for the Woodworking Industry

# SAVI

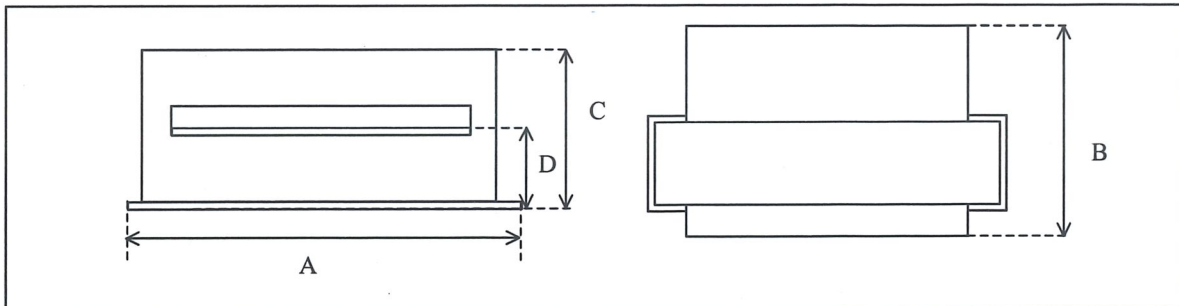

## Veneer length-cutting guillotine HFK for perfect parallel jointing cuts

## Machines for the Woodworking Industry

### The STANDARDMACHINE is covering:

- ◆ Motor driven parallel fence, movement : 25-675 mm
- ◆ Digital read out showing the distance from parallel fence to knife.
- ◆ Two-hand operation of knife and pack beam.
- ◆ Simultaneous movement of knife and pack beam – or separate movement of pack beam and then knife at second cut.
- ◆ Electric safety light barrier of knife and pack beam
- ◆ Physical covering of the rear of the machine
- ◆ Second cut with automatic reset.
- ◆ Green guide line light.
- ◆ Security cylinder.
- ◆ Central greasing system.
- ◆ Main switch.
- ◆ Complete with tools and instruction manual.
- ◆ Noise level: 60 DB
