

GLOBAL Membrane Press INDUSTRIAL

The GMP-I is the industrial model of the product line *Membrane Presses* and has been developed for industrial use and serial production. The machine offers ideal characteristics for woodworking, such as veneering, laminating and bending all kinds of wood. The powerful 40 m³/h vacuum pump assures a quickly, consistently strong vacuum and an optional vacuum tank ensures particularly rapid evacuation of the air. A strong compact board with up to 32 suction points, a clearly arranged control panel and automatic mode for the vacuum pump offer an efficient and convenient way to work. *This model is also available as a folding table version.*

PRODUCT INFORMATION

- Developed for industrial use and serial production
- Adjustable vacuum switch for automatic vacuum pump stop
- Optional vacuum tank with up to 300 liters
- Custom sizes available
- Flat veneering or HPL takes approx. 10 min
- Bending 3x 3mm MDF + 2x HPL R500 takes approx. 40 min

TECHNICAL DETAILS

- Maintenance free vacuum pump
- Max. vacuum pressure 9 t/m²
- 18 mm compact press board with up to 32 suction points
- Flat natural rubber (NR) membrane 2 mm thick (grey),
- High polyurethane (PU) membrane 0,75 mm thick (transparent)
- 380 Volt, three-phase
