

Pressure unit 1913 pneum.

Specifications

■ 1913 pneumatic

- All pressure rollers pneumatically controlled
- Large pressure roller can be adjusted individually, small pressure roller can be adjusted jointly

■ Pressing force of pressure rollers (4.2 bar): max. 350 N

Edging thickness	1st pressure roller (large)	2nd and 3rd pressure roller (small)
0.3 – 2.0 mm	approx. 4.2 bar	approx. 0.5 bar
2.0 – 15 mm	approx. 1.5 bar	approx. 4.2 bar

1 bar = 91.67 N
