

# EVA

*Automatic edgebander with hot melt glue  
for 0,4 -2 mm tapes*

**STANDING  
INNOVATION**

0,4 - 2 mm    2 mm

\* MOD. EVA 2

***The high-performance compact edgebander.***

Eva is the automatic and compact edgebander, of high manageability and performances.

The great quality of edgebanding is granted by tape and panel feeding, synchronized to avoid the tape back-slip at the moment of gluing.

The top-bottom trimming from 0,4 – 2 mm is automatically done by the milling tools with 15° tiltable knives (optional 2 mm radius).

Eva 2 can is also equipped with automatic guillotine with double saw for automatic front/back panel end trimming.

## TECHNICAL DATA

	<b>EVA</b>	<b>EVA 2</b>
Installed power	1,7 Kw	1,7 Kw
Panel thickness	10/40 mm	10/40 mm
Tape thickness	0,4-2 mm	0,4-2 mm
Electric supply	380/200-50 Hz	380/200-50 Hz
Trimming motors speed	9000 rpm	9000 rpm
Adjustable front support	opt.	opt.
Guillotine	/	standard
Weight	410 Kg	420 Kg
Dimensions	230X60X132	230X60X132
