

MiniMax

MINIMAX SHAPER T45I & T45F

The T45I and T45 shapers are the latest members of the MiniMax family of professional machines offer with either fixed or tilting spindle 0°/45°. These machines combine high performance and absolute reliability with precise, flexible operation. The cast iron table has a ground surface that guarantee flatness. The T45I/T45F can be used for most workshop machining requirements.

Technical features:

Table dimensions standard version	1000x575 mm	39-3/8"x22½"
Max. spindle working length	108 mm	4¼"
Spindle moulder unit tilting (T45I)	90°/45°	
Spindle moulder speeds	3500/6000/8000/10.000 rpm	
Max. diameter of profiling tool	210 mm	8¼"
Max. diameter of tenoning tool	275 mm	10¾"
Motor power (single-phase)	3,6kw 4,8Hp 60Hz	
Base machine weight T45F	185 kg	407 lbs
Base machine weight T45I	270 Kg	594 lbs
