## Automatic sander

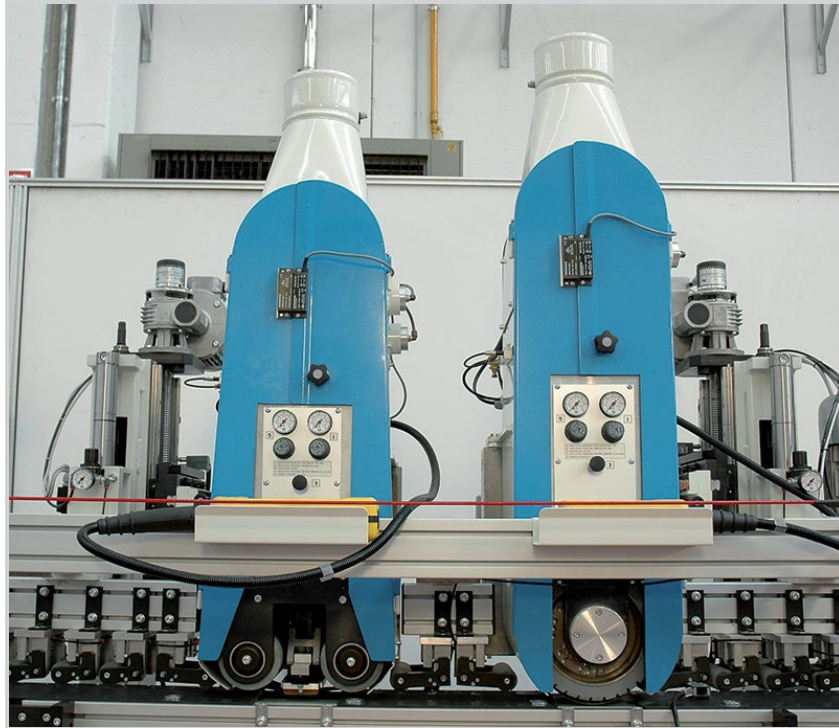

Automatic sander LBT, built to match the highest sanding requirements of disassembled window elements.

- If requested, LBT is able to sand the main window surfaces with roller sanding belt and pad sanding belt,
- sanding wheels or abrasive brushes. The machine can be configured to sand the inner side of the window with just one pass.

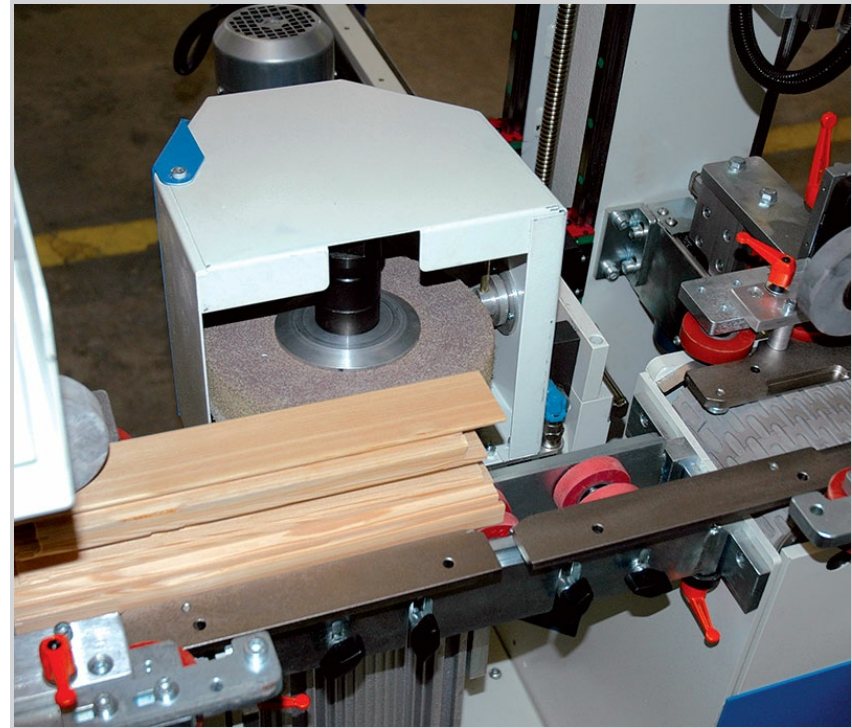

On request, automatic set-up systems are available.

- ✓ Wide range of operating units, belt unit with roller, belt unit with pad
- ✓ Sanding group with adjustable speed, with hard or stripped sanding wheels
