

Zapkul

Zapkul ZM Range:

The new moving column range of compact Vertical Panel Saws

The easy, accurate and affordable solution to cut sheets of up to 10'x7' (3100x2100mm)

- Compact moving column design
- Precision bearings for smoother accurate cutting
- Plunge and bevel capability
- Depth Control
- Powerful saw head
- Easy change from rip to cross cut
- Provision for dust extraction

mm (inches)	ZM12	ZM16	ZM21
Capacity	2500x1250 (98 x 49)	3100x1600 (122 x 63)	3100x2100 (122 x 83)
Depth of cut	38 (1.5)	38 (1.5)	38 (1.5)
Length	3100 (122)	3600 (142)	3600 (142)
Height	1914 (75)	2205 (87)	2645 (104)
Depth	700 (28)	750 (30)	800 (32)
Power KW	1.3	1.3	1.3
Blade diameter	165 (6.5)	165 (6.5)	165 (6.5)

You'll wonder how you ever managed without it!

How do you cut sheet materials in a small workshop?

Traditionally, sheet cutting in a small workshop has been done using a table saw, which requires extensive floor space. For the very small operation, a hand-held circular saw and trestles is an option, but sheet support is not easy, especially with thin, flexible materials.

The safety risks of table saws and portable circular saws are well known, particularly when cutting small pieces.

More recently, some users have considered vertical panel saws; however these have tended to be relatively expensive.

The Answer: The new Zapkut ZM Range

The ZM range from Zapkut is designed for the smaller operation which needs a compact, economical and safe sheet cutting solution. Available in three sizes, these machines give easy, single handed (one person) fast, accurate sheet cutting.

Using state-of-the-art design and manufacturing methods, the robust ZM units are designed for lifelong smooth accurate cutting. They come complete with quick stop and mid height support for fast dimensioning and easy cutting of small pieces. They have been designed for those requiring a robust, accurate and low cost workhorse.

Cross cutting

Rip cutting

Applications:

The Zapkut ZM is ideal for a wide variety of tradespeople, including:

- Shop, office, kitchen and bathroom fitters
- Smaller workshops with limited cutting requirements or budgets
- Signmakers and others using off-cuts from pre-cut material
