

Wadkin

The Wadkin NV 300 profile grinder is a high performance machine that provides real value for money. It's a well proven production unit with accuracy that's more than a match for its costlier rivals.

NV PROFILE GRINDER

- Powerful motor for greater grinding efficiency
- Profiling up to 310mm length
- Cutting circles up to 300mm
- Tilt mechanism for side clearance
- Adjustments for different clearance angles
- Suitable for HSS, Stellite or carbide cutters
- Built in diamond dresser

Standard Equipment

- 40mm diameter arbor.
- Diamond wheel dresser.
- 4.7mm wide radius and square stylus.
- Coolant pump.
- Motor and control gear.
- Electrical specification to requirements.
- Standard work light.
- 5 roughing wheels.
- 5 finishing wheels.
- 3 lengths of template steel.
- 5 litres soluble oil.
- Instruction manual.
- Removable coolant tank.
- Machine conforms to C.E. regulations.

Optional Equipment

- Variable speed motor.
- Template making toolkit.
- Narrow grinding finger for segmental tooling.
- Full range of styli.
- Full range of arbors.
- Full range of Grinding Wheels for HSS & TCT Cutters.

Specification

Table action	LINEAR
Maximum length of cutter profile	310mm
Maximum diameter of cutting circle	300mm
Minimum diameter of cutting circle	75mm
Maximum depth of cutter profile depending on cutter thickness	40mm
Output of grinding wheel motor	1.5 kW (2 hp)
Output of coolant pump motor	0.06 kW (0.08 hp)
Coolant tank capacity	22.7 litres
Grinding wheel diameter	230mm
Grinding wheel width	4.7mm
Grinding wheel bore	31.75mm
Height	1500mm
Width	1270mm
Depth	100mm
Weight (with filter)	400kg
