T630

Planer and Thicknesser

Perfect finish over complete timber length.

- Low cost. Big capacity.
- Infinitely variable feed speeds.
- Power rise and fall – standard.
- Increased feeding power.
- 10mm stock removal in one pass.

- Safe – Fully guarded. No volt release and overload protection fitted as standard.
- Easily maintained – greased for life bearings.
- Anti kickback fingers – fitted as standard.

Grouped Controls
For less operator fatigue and ease of operation, controls are grouped conveniently to hand.

Power Rise and Fall
Rise and fall switch with fine adjustment. And digital read-out for ease of operation and repeatable accuracy.

Stock Control With Safety
Sectional chip breaker over the whole width of material. And anti kickback fingers fitted as standard.

***Sectional Feed Rolls**
High productivity with multiple feeding of timber of uneven thickness.

***Built In Grinder**
A further aid to productivity. Cutters can be ground without removing them from the machine – saving "down-time". Encourages regular sharpening of knives.

***Automatic Braking**
Can be fitted with an automatic brake which is operated by the stop button.

High Quality, Robust and Effortless to Operate

And, Most Important, This Machine is Very Competitively Priced.
