

Processing Center Optimat ABD 100

Horizontal drilling, gluing and dowelling with one machine

Horizontal drilling, gluing and dowelling in seconds

The **ABD 100** processes workpieces with impressive speed and precision.

With the **ABD 100**, processing centers can be utilised even more effectively. Increased productivity resulting in increased profits are achieved thanks to drilling, gluing and dowelling in a matter of seconds.

Addition to the processing center

Greater productivity for the company.

■ Stand-alone solution

The **ABD 100** can be used as a stand-alone, intependent machine for horizontal drilling, gluing and dowelling.

No prescribed drilling or dowelling patterns

Construct according to the customer's requirements and not according to the machine capabilities.

Simple and rapid materials handling

Short distances and perfect ergonomics ensure that the user can work quickly and safely.

■ Effective working

Handling times are minimised and production times maximised.

■ No set-up times

React quickly to customer requirements and secure a competitive edge.

WORKPIECE DIMENSIONS

	min.	max.
Length	50 mm (2``)	800 mm (31 1/2``)
Width	20 mm (4/5 ``)	1.250 mm (49 1/5``)
Thickness	10 mm (2/5``)	60 mm (2 2/5``)

CONNECTION DATA

Supply voltage	3 x 400 V, 50 Hz
Connected wattage	approx) 7.4 kW
Extractor connection	1 x D 80
Extraction speed	min. 30 m/sec.
Compressed air supply	min. 6 bar
Compressed air connection	1 x 1"

TECHNICAL SPECIFICATION

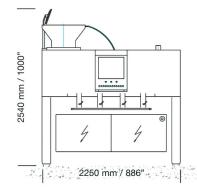

- 3 horizontal drill spinoles
- 1 dowel driving device
- Standard dowel dimension:
 8 mm diameter x 35 mm length
- Dowel tolerances:
 - +/- 0.2 mm for diameter;
 - +/- 1.0 mm for length
- Dowel adhesive: Glue or Water

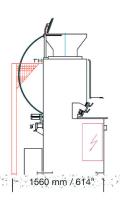

OPTIONS

- Vertical drilling from above
- Positioning axis in Z direction
- Positioning axis in Y direction
- Drill gearbox with individuallyselectable spindles
- 4 positioning sections
- Working range up to 2500 mm
- Glue control
- Special dowel dimensions

CONTROL

- PC control
- woodWOP software for easy programming
- Integration software for scanner connection
- Network connection
- PC modem for remote diagnosis
