

Perfect edging taken to the point

STREAMER 1053 | 1054

PRODUCTIVITY AND PRECISION

Your compact
entry to
HOLZ-HER edging
technology

STREAMER 1053 | 1054

Superior appearance for all materials

Starting with the state-of-the-art, high gloss edging right up to solid wood edging with cross section of 6 x 65 mm, HOLZ-HER remains unequalled for variety.

HOLZ-HER sets the trends for tomorrow today.

Illustrations may contain
optional features.

- **Processing dimensions just like a big one**
 Compact, simple and powerful up to 6 mm edge thickness and 60 mm of workpiece thickness.
- **Premilling for perfect results**
 Includes two diamond cutters for a perfect preparation of your panel before edgebanding.
- **Clear and powerful**
 Compact control for easiest operation.
- **Perfect finish**
 With two freely selectable post-processing units (radius scraper, surface glue scraper, buffing unit).
- **Always a good connection**
 Highly flexible adhesive application with the classical HOLZ-HER nozzle system.
- **For a water-resistant connection**
 Process PUR glue as easy as EVA glue.
- **Multi-function cutter unit**
 Including diamond tipped cutter.

HOLZ-HER NOZZLE SYSTEM

Hybrid technology – two perfectly combined systems

The edgebander is decisive for furniture with a high quality appearance. You can also profit from 45 years of HOLZ-HER technological leadership in edgebanding.

- Change over from colored to neutral glue at the flick of the wrist.
- Change over from EVA to PUR glue is also possible within the shortest time.
- And the entire system can also be completely cleaned in just minutes.

Unchallenged fast heat-up time only 3 minutes
