

# VIET OPERA R

Robotised sanding machine

# Automated artisan skills

Made **In** Biesse

## The market demands

a change in manufacturing processes, enabling companies to accept the largest possible number of orders. This is coupled with the need to maintain high quality standards whilst offering product customisation with quick and defined delivery times.

## Viet responds

with technological solutions that guarantee a excellent product quality with maximum machining flexibility. **Opera R** is the robotised sanding machine that is unique, offering levels of machinability, precision and quality never before obtained with the technology of this sector.

Freedom to machine the panel in any direction, following the grain of the wood and avoiding any possible machining flaws.

No machining limits: Opera R allows you to machine elements on different planes, the inside of profiles and shaped edges, guaranteeing the optimum quality of the end products.

Precision and machining consistency, thanks to the new, patented Control Force system that regulates the intensity of the abrasive action on the panel.
