Rotoclean G Plus uses the most modern technologies available on the market today.

It is as usual equipped with the famous and patented Gun Tracking System that allows a perfect spray application on all kind of flat surfaces. Its very low paint and solvent consumption together with low maintenance requirements makes it to an extremely cost efficient system. A full range

of drying systems, sanding and denibbing machines as well as material handling equipments will allow you to build around the ROTOCLEAN G Plus a complete finishing line for any kind of coatings: whether water-based, solvent-based or UV products.

Last but not least, you will love also the new ROTOCLEAN G Plus for its user-friendliness and its simplicity of use.

PLUS AND BENEFIT

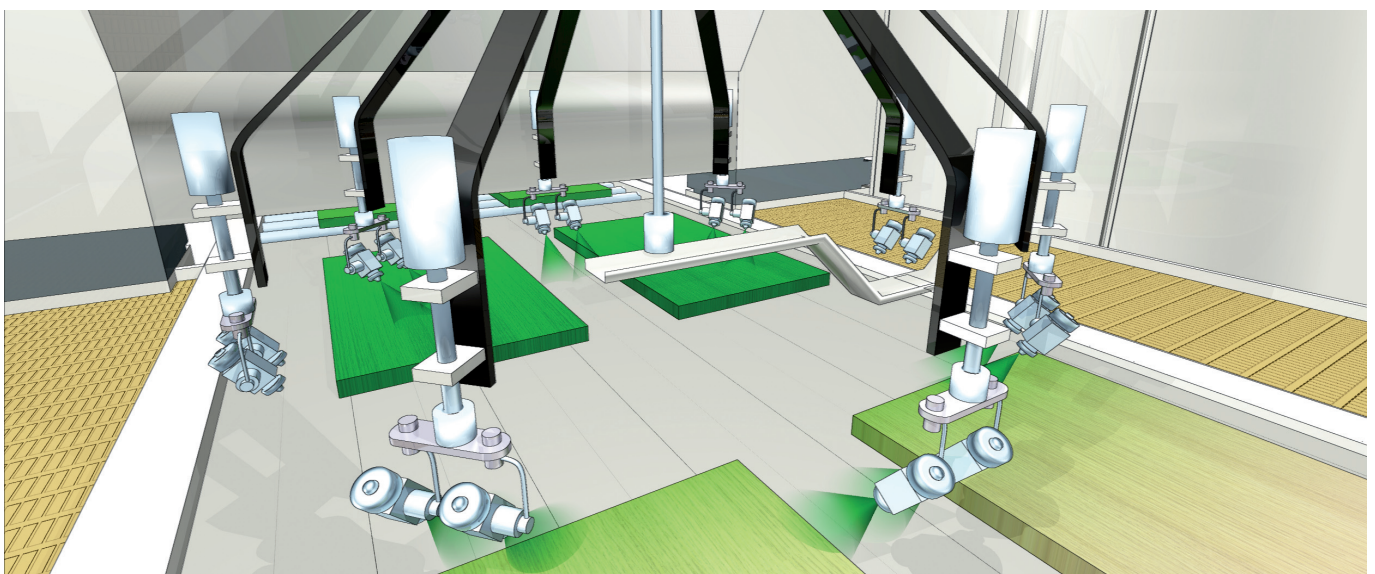

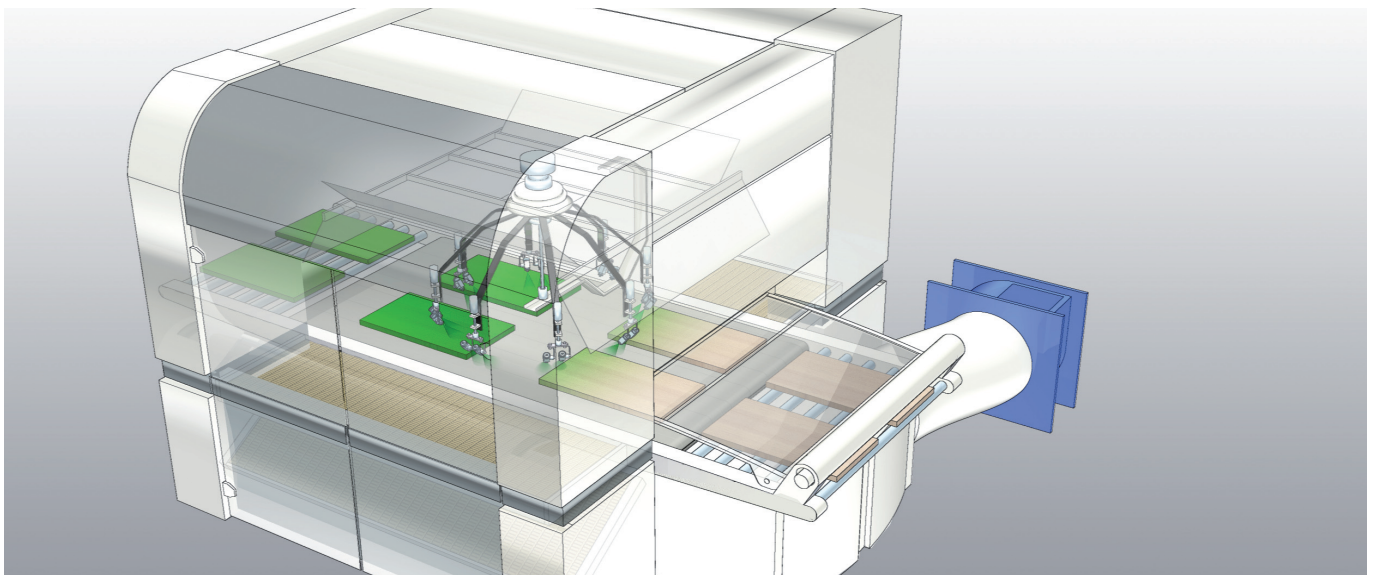

- Spray system with a 8 arms rotating carousel that can be equipped with up to 16 guns and 2 circuits.
- Efficient distribution of the air at the entrance of the booth enclosure, in the roof, in order to insure a clean working environment and avoid pollution on the coatings.
- Full belt conveyor with patented cleaning system for

- an optimized product recovery and no marks on the backside of the panels.
- Automatic air flow extraction at a level of 12.000 m3/h to evacuate the overspray in the filtering system and enhance finishing quality while keeping the booth clean.
- Electronic monitoring of spraying with a 128 photo-diodes bridge to detect the parts and to point the spraying only on them.

MAIN ADVANTAGES

- High Transfer efficiency and Reduction of the over-spray thanks to the rotary technology (20-25 % of product savings compared to reciprocating systems).
- High quality of surface thanks to the application of perfectly even layers of lacquer.
- High speed and production output of the line, up to 10 m/min.
- Better coverage of the edges and of complicated, non-flat surfaces thanks to the Gun tracking System.
- Easy to adjust and to operate thanks to Plc and touch screen command (optional).
- Low maintenance, extremely cost efficient system.
