FELDER

Woodworking Systems

The comprehensive FELDER program of professional woodworking machinery is the result of over 30 years of experience in Europe's demanding marketplace.

Design and Manufacture

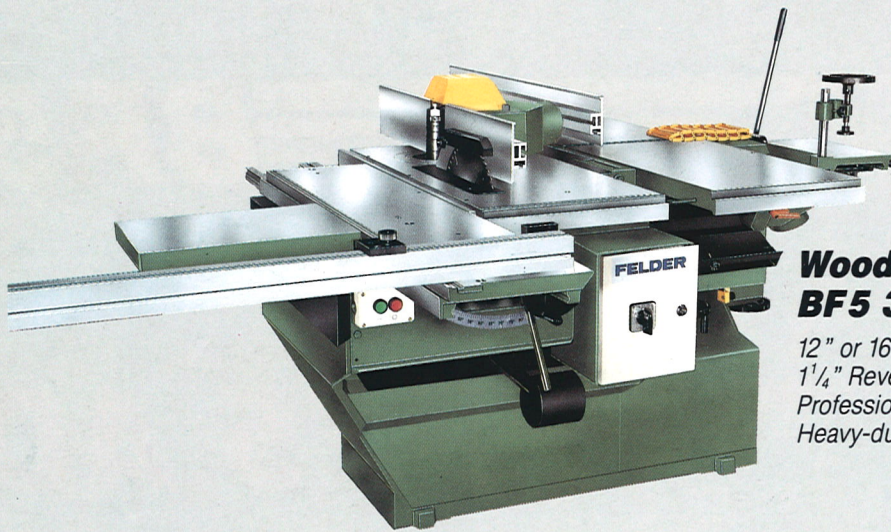

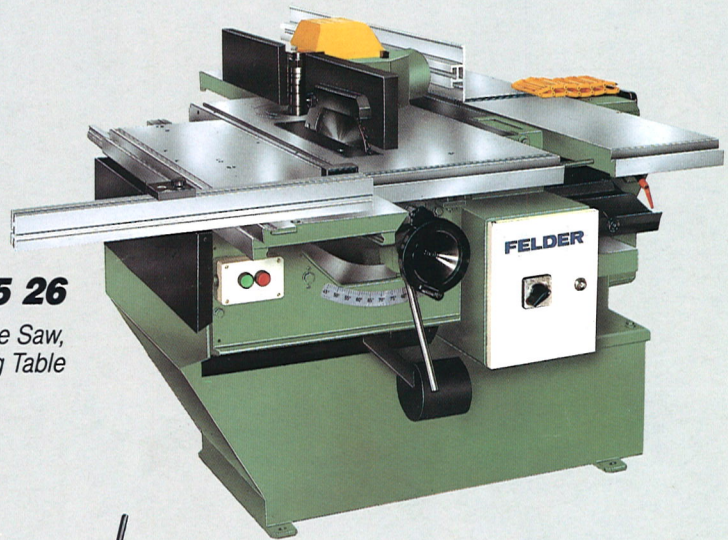

The new generation of FELDER machinery is the result of the state-of-the-art in design and construction, modern woodworking techniques and of course, customer input.

Please indicate which machinery is of immediate interest to you to receive further information. You will be impressed with FELDER's extraordinary combination of performance, precision, reliability, and value.
