## Hand-Kanten-Verleimer Typ HKV 7

Die neue Generation mit den 3 Plus ● Punkten

1. ● Rüstzeit? – **keine**
2. ● Anheizzeit? – **keine**
3. ● Nachlaufzeit? – **keine**

HKV 7 - Standard

HKV 7 mit leistungsstarkem Leister-Gebälse und Abspulvorrichtung.

Für ● **Industrie**  
● **Handwerk**  
● **Heimwerker**

Der **HKV** von MBH erhitzt nicht das Material, sondern den Kleber in der Klebefuge. Nur dieses garantiert eine einwandfreie Verklebung des Schmelzklebers ohne Beschädigung des Kantenmaterials.

## Hand-Edge-Bander Type HKV 7

The new generation with the 3 Plus ● Points

1. ● Equipping time? - **none**
2. ● Time for heating up? - **none**
3. ● Past-running time? - **none**

HKV 7 - Standard

HKV 7 with powerful Leister-blast and equipment to unwind the edge material.

Suitable for ● **Industry**  
● **Handicraft**  
● **Hobby**

MBH's **HKV** doesn't heat the material, but the adhesive in the adhesive-rabbit. Only this guarantees a faultless pasting of the melting adhesive without damaging the edge material.
