LIQUID MEMBRANE PRESS

HEAVY VERSION

FLUID

This press is right to cover ashlar and doors with veneer on both sides. The inferior movable plate is guided by a series of crossed racks. Solid and perforated plates with iron frame to fix the membrane. The Fluid press has a liquid pouring off system by a high capacity pump. The press is fitted with a double membrane always in contact with the heated plate also during still work. A cut flamed structure guarantees a great stability at a high quality work. No extraction tray.
