### ROLLER COATER.

Machine designed for the application of uniform coats of varnish or lacquer on flat surfaces by means of a head with a rubberised application roller. The metallic dosing roller has a switch for reverse turning to increase the coat adjusting capabilities with extreme accuracy.

### *BARNIZADORA A RODILLO.*

*Máquina para la aplicación de una capa uniforme de barniz o de pintura sobre superficies planas mediante un cabezal equipado con un rodillo aplicador recauchutado y un rodillo dosificador metálico reversible para poder ajustar el grueso de la capa a aplicar con absoluta precisión.*

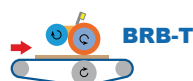

anchos / widths 600mm  
hasta / up to 2400 mm

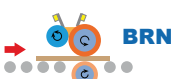

Roller coating machine with belt conveyor.  
*Barnizadora de Rodillos con transporte de banda.*

Roller coating machine with belt conveyor, Rill-Roller system.  
*Barnizadora de Rodillos con transporte de banda, sistema Rill-Roller.*

Roller staining machine with belt conveyor.  
*Tintadora de Rodillos con transporte de banda.*

Roller coating machine with rollers conveyor.  
*Barnizadora de Rodillos con transporte a rodillos.*

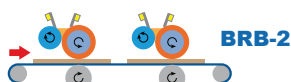

Top and bottom roller coater with roller conveyor.  
*Barnizadora a rodillos con aplicación superior e inferior y transporte de rodillos.*

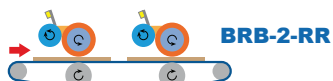

Roller coating machine with rollers conveyor, Rill-Roller system.  
*Barnizadora de Rodillos con transporte a rodillos, sistema Rill-Roller.*

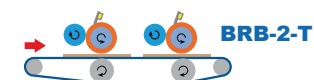

Roller coating machine with belt conveyor and two application heads.  
*Barnizadora de Rodillos con transporte de banda con dos cabezales.*

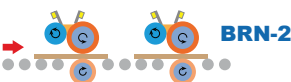

Roller coating machine with belt conveyor and two application heads, Rill-Roller system.  
*Barnizadora de Rodillos con transporte de banda con dos cabezales, sistema Rill-Roller.*

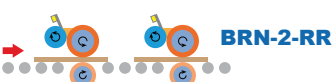

Roller staining machine with belt conveyor.  
*Tintadora de Rodillos con transporte de banda con dos cabezales.*

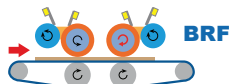

Roller coating machine with rollers conveyor and two application heads.  
*Barnizadora de Rodillos con transporte a rodillos con dos cabezales.*

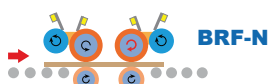

Roller coating machine with rollers conveyor and two application heads, Rill-Roller system.  
*Barnizadora de Rodillos con transporte a rodillos con dos cabezales, sistema Rill-Roller.*

Roller coating machine with belt conveyor, Reverse system.  
*Barnizadora de Rodillos con transporte de banda, sistema Reverse.*

Roller coating machine with rollers conveyor, Reverse system.  
*Barnizadora de Rodillos con transporte a rodillos, sistema Reverse.*

Compact coating center.  
*Barnizadora a Rodillos pesada.*
